

Race Committee meeting - 5th June 2014

Tim, Sam, Jason, Adam

Open races = long inshore NHC

3 handicaps - inshore, long inshore, offshore (each one starts with base number which then corrected throughout year)

Only Steve V can use Sailwave - plan to train race team when system finalised.

Need to have adjusted NHC available for the next race officer to get results available on day of race

NHC adjustments starting to level out with 2014 system; summer series will start with adjusted 2014 handicaps from end of Spring series

Keep NHC until end of year as agreed at AGM

Open races = stand alone result using base & trophy awardees. Results will also be generated using adjusted NHC to add to long inshore series

Action: communicate agreements to skippers via e-mail. Tim by end 6th June

Options for next year = stick with NHC, IRC, VPRS or use historical information from SCCH

SCCH is prone to bias / human element - open to complaints

All agree should be rated system rather than handicap

IRC - cost involved ~ £100, widely used

VPRS - cost ~£20, very similar to IRC

Action: Survey Monkey to skippers with options about handicaps - decide on Q's by July meeting

Add Q's about calendar - would you like to see more of a particular type of race etc
